- Rivers Open for Spearing and Netting
- Lakes
- Rivers
- Great Lakes
- Known Ore Bodies
- Exploration Areas
- Mines
- Tribal Land
- Ceded Territory Boundary
- County Boundary

Natural resource and treaty harvest information has been developed by GLIFWC and the 1854 Treaty Authority. It is recognized that there are other areas where tribal members of our member tribes as well as tribal members of non member tribes harvest natural resources that are not depicted on this map.

Ceded territory and tribal reservation boundaries are representations and may not be the actual legally binding boundaries.
